Private tuition in the UK

The UK has a number of independent high schools, which charge fees to British students and overseas nationals and pride themselves on their high standard of facilities, teaching and reputation. Many of these schools (operating outside of the state system) accept international students, for summer language courses or year-round tuition, and foreign students can be incorporated into the mainstream education system. A variety of language courses are offered, including academic preparation, summer vacation or one-to-one tuition.

Course Guide

The table below is a general guide only to a selection of independent high schools in the UK. All facts should be checked with the institutions listed. For a school's contact details, please fax us with its name, location and the reference: "Course Guide JAN/02".
